

Invitational International Seminar on Schooling

IISS is planning the annual IISS Spring Seminar trip for 2015. The spring trip will be an in-depth visit to Western Canada, with the seminar week in Vancouver and Victoria, British Columbia, two of the most beautiful and interesting destinations in Canada, and the second week on the Canadian Dome Line Train from Vancouver through the magnificent Canadian Rockies to Jasper, Alberta. From Jasper we will travel through the glacier fields to Lake Louise, and then through one of the most beautiful, scenic drives in the world to Banff.

Canada is very interesting educationally. It has recently been featured for its improved educational system, which, in international results, often exceeds its neighbor to the south. It is also unusual because it has a dual system of public and parochial schools, both funded by the government. British Columbia has been heavily impacted by a large influx of immigrants from the far east, so it is grappling with many of the same issues facing American schools.

Our past spring trips have usually been the first two weeks in May – however, due to Canadian weather, we hope to make this trip either the last two weeks of May or the first two weeks in June, whichever works out to be the best timing for those interested. If you are interested in this trip, please let me know your preference on the timing.

Since we will be flying into Vancouver and out of Calgary, we will probably not need a group air arrangement, and everyone can possibly use mileage points for their air from their preferred airports, in order to make this a very special and economical trip. However, if you do need assistance with your air arrangements, we'll be happy to assist.

Full pricing and details will be forthcoming shortly on this spring/early summer trip. Please feel free to contact us if you have any questions.

We hope you can join us. Looking forward to seeing you –

Best regards,
Bobby Bulger
